Category description for the Daily Language Review: These language review art books cover an excellent variety of skills with daily exercises for 36 weeks. They don't have as many suggestions of combining exercise as the daily Grams series, but contain more exercises like analogies, root word revealing, fact/opinion, vocabulary skills, curriculum and more (58 skills in all). This series has become even better (and more convenient to use) in that the answer key has been consolidated and moved to the back of the book. Earlier this week's responses came after Friday's lesson, making it more inconvenient to use. Reproduced, 128 pg each. Please note that this edition does not work with the Daily Language Review Student Workbook. Description of the category for combined grammar, use, mechanics - additional: These materials are also comprehensive in scope, but are complementary, as opposed to more complete programs.
