The picture is not available forColor: I guess the sub keyboard is the optimal way to play this game but I have beaten the zoo 10 times with it so it may not be that bad. Anyway here's my snaps: very curious to know what others have. Page 2 24 comments Hollow Knight's General Discussion of the Topic of Details Do You Play With the Keyboard? So as a keyboard player who has never had a control problem and has a 100% completion rate, I have to say that I always get a little crazy every time I run the game because he says the controller is highly recommended. I'm just curious how many people also use the keyboard for this game? There's no way I'm alone. Note: This is only to be used to report spam, advertising and problematic (harassment, wrestling, or rude) messages. Note: This is only to be used to report spam, advertising and problematic (harassment, wrestling, or rude) messages. Hollow Knight contains re-control for both the keyboard and the Xbox or Dualshock 4 controller. On wikis, due to several possible inputs and ability to redirect said inputs, buttons/key hints are called their actions, not the name of the assigned button or key. This is a guide to the names of each input and its default display. The default cards for any future consoles will be added after the release of Title Use JUMP Jump, Bounce Off walls with Mantis claw, activate Monarch Wings while in the air ATTACK Attack with a fingernail, hold to charge nail arts FOCUS / CAST Cast Spells, keep to use Focus DREAM NAIL Hold to use Dream or Dreamgate KVIK CAST Cast Cast Cast Map, Hunter Magazine, or Charms) SUPER DASH Hold use Crystal Heart, navigation menu, goal nail attacks, change nail art used, change cast spell, activate or warp Dreamgate or or or or all image buttons used as part of The Creative Commons from Xelu on the OpenGameArt.org Dualshock 4 Icon Made by Freepik from www.flaticon.com Controls in Hollow Knight is covered on this page. This will include a guide to the names of each action and its default display, players can, later, choose to remapping the buttons according to their preferences - the default display of controls will be for PC, Xbox One, PlayStation 4, and Nintendo Switch.
